Summary

Data-driven Technical Recruiter capable of Advanced Boolean Search to identify and mine top candidates with a strong Software Development background; specialized in building web and mobile applications that are aesthetically pleasing and logic-driven.

There's nothing like the thrill of a candidate's enthusiastic "Yes!" to an offer, and an equally pleased Hiring Manager who just landed a top performer. Perhaps even more satisfying is successfully recruiting a superstar and then seeing him/her develop a billion-dollar product. Knowing my efforts impact the bottom line keeps me going every day.

In addition to my knowledge base, I actively seek out new technologies and stay up-to-date on industry trends and advancements, currently building experience in Designing HR Processes, Technical Recruiting, Talent Sourcing, Strategy Development, Recruitment and Selection, Employee on-boarding, Payroll Management, HRIS, Employer branding, Learning and development, and other Human Resources functions spanning Tech Start-ups, Consulting, Financial technology space, and NGO sectors.

This has allowed me to stay ahead of the curve and deliver exceptional work to all of my clients.

Education

Apr 2015 - Apr 2019

BSc. Microbiology

Obafemi Awolowo University, Ile-Ife

Employment

Apr 2022 – Present

Recruitment Consultant – Contract

VGS Recruitment Solutions, Lagos, Nigeria

Building relationships with clients.

Sourcing potential candidates on platforms such as LinkedIn, and GitHub.

Serving as an ambassador for VGS Recruitment Solutions and representing her in potential candidates' first interactions with the organization.

Performing pre-screening calls to analyze applicants' abilities. Interviewing candidates combining various methods (e.g. structured interviews, technical assessments, and behavioral questions).

Coordinating with Technical team leaders to forecast department goals and hiring needs. Crafting and sending personalized recruiting emails with current job openings to passive candidates.

Keeping up-to-date with new technological trends and products.

Creating a seamless candidate experience through all stages.

Actively engaging and promoting diversity and inclusion in hiring strategies.

Apr 2022 – Present

Community Leader || Senior Technical Recruiter – Volunteering

Jobs Meet Devs, Lagos, Nigeria

Communicating mistakes software developers make every day in their job search pursuit with the heart of a Technical Recruiter and the mind of a Software Developer.

Helping developers avoid the regular pitfalls in hiring processes by using any collection of materials including animate and inanimate objects and human and non-human resources useful in teaching and learning situations to help achieve desired learning objectives.

Sharing job opportunities for members of the community.

Creating systems for organizational growth.

Building an all-round development atmosphere.

March 2020 – Present
